# BüroMimari

## Shaping Tomorrow with Architectural & Interior Design Excellence

BüroMimari is the architectural and interior design division of BuroGrup, specializing in the full scope of design development, project documentation, and coordination.

From concept creation to project execution, BuroMimari integrates architectural and interior design disciplines to ensure aesthetic consistency, technical accuracy, and seamless coordination across all phases.

### Our Services:

- **Concept Design**

Developing architectural and interior design concepts, spatial planning, and visual presentations tailored to each project's identity.

- **Architectural Application Projects**

Preparing detailed architectural and interior design drawings, ensuring technical precision and design integrity throughout the implementation process.

- **Project Management & Technical Coordination**

Managing design integration across disciplines — including façade systems, joinery details, and MEP coordination — to maintain consistency from design to construction.

- **Design Consultancy**

Providing strategic guidance in design optimization, material selection, and implementation methods for investors, developers, and architectural offices

- **Project Supervision**

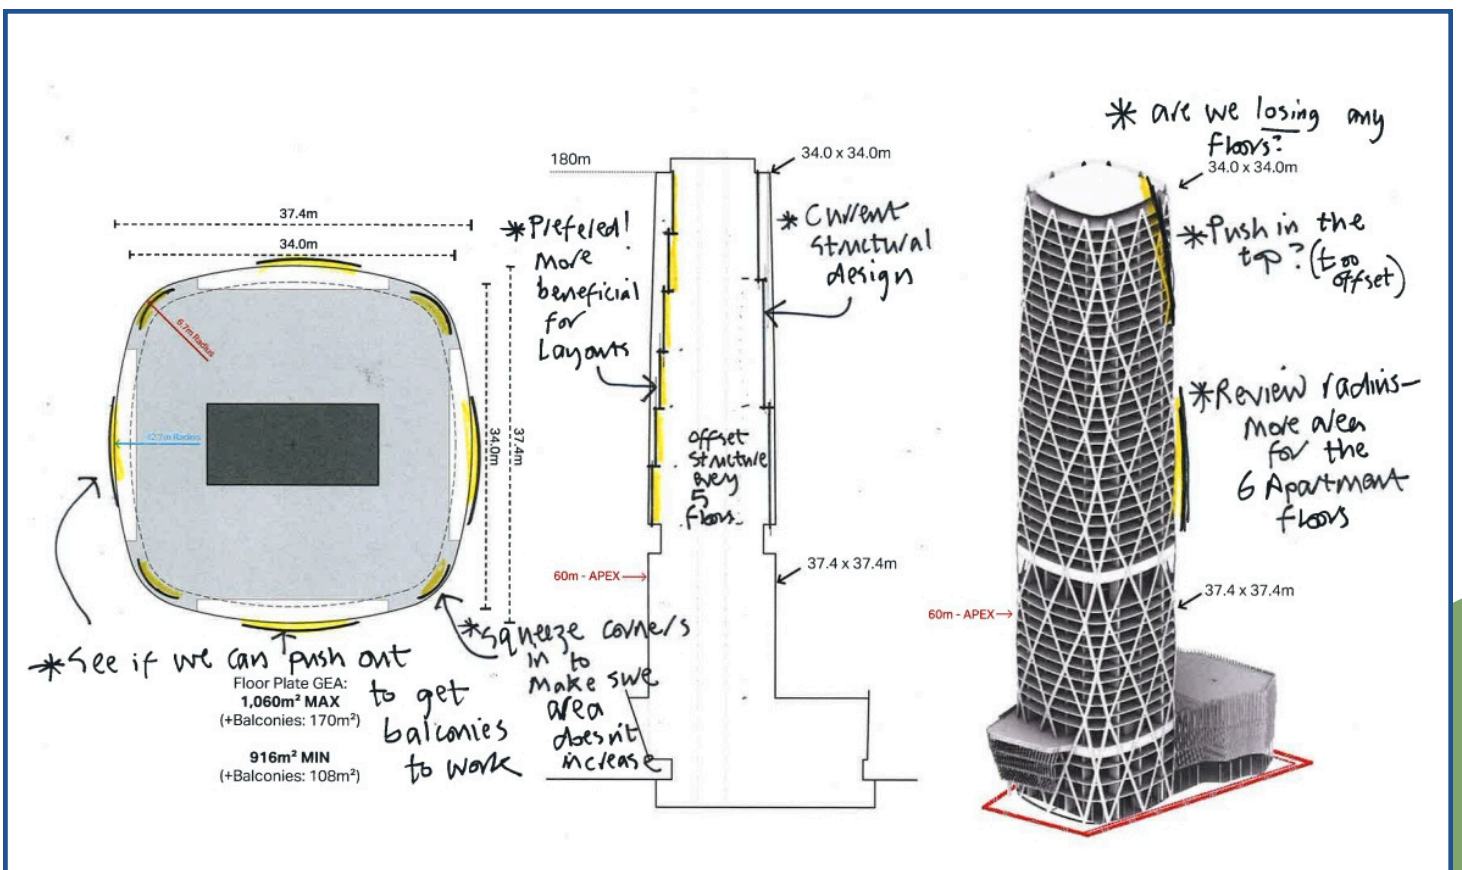

Overseeing on-site design implementation, ensuring quality control and adherence to approved design intent during construction.

## Why GrandArch?

- **Architectural Integrity:** Each project is developed with full respect to design intent, functionality, and aesthetic consistency.
- **Integrated Design & Coordination:** From architectural and interior design to detailed coordination and implementation, every stage is managed seamlessly under one structure.
- **Collaborative Workflow:** We ensure smooth collaboration between architects, engineers, and investors through transparent and technical communication.
- **Quality & Reliability:** Proven expertise in design and execution guarantees excellence from concept to completion.
